

Date of meeting

- 21 February 2008, 13:00 GMT

Participants

- Ellen Stokes, IBM
- Sergio Andreozzi,
- Steve McGough, Imperial College
- Andreas Savva, Fujitsu
- Donal Fellows, UoM
- David Snelling, Fujitsu
- Michel Drescher, Fujitsu
- Hiro Kishimoto, Fujitsu
- Adrian Toth, Univ of Miskolc

Minutes Approval

Feb 14 approved without changes

Action Items review

AI-6110: DMTF Work register

- No update reported
- Probably progress during OGF-22
- Put on General Session on OGSA's sessions

Tracker review (Information Model Arch tracker)

art6034: "a simple diagram based on GLUE discussion in previous sessions"

- The group discusses the alternative approaches to information models; discussion sways between UML, MoF and the implications
- Conclusion: To keep the diagram as it is; artefact closed.

artf6033: "change all figures' colors to be readable on B/W"

- Almost all are changed with exceptions
- Figure 4 seem not readable on b/w figures: blue prints too black
- Figure 5 is fine on b/w printers
- Conclusion: change figure 4 appropriately

artf6035: "check among GLUE/CIM/BES attributes"

- Conclusion: artefact closed.

artf5979: "how RM fits into three bubble diagram"

- Conclusion: artefact closed.
- artf6107: "Include updates agreed at Jan. F2F meeting."
- Conclusion: artefact closed.
- artf6124: "Make XQuery example simple"
- Conclusion: artefact closed.
- artf6037: "provide complex usecases of Appendix"
- Should be taken together with artefact 6038
 - Conclusion: artefact closed.
- artf6038: "provide simple usecases of Appendix"
- Should be taken together with artefact 6037
 - Conclusion: artefact closed.
- artf6109: "Revised JSDL Requirements Appendix"
- Same as or strongly related to artefacts 6037 and 6038
 - Conclusion: artefact closed
- artf6032: "revise Figure 1 by creating a new bubble for CIM"
- Done through other artefacts.
 - Conclusion: artefact closed
- artf6036: "rewrite section 5 with examples using XQuery based on GLUE attributes"
- Done through other artefacts
 - Conclusion: artefact closed
- artf6108: "Update XML document (section 5)"
- There seem some confusion with figure numberings. Needs fixing.
 - Conclusion: artefact closed; figure numbering is fixed during last call.
- artf6122: "XQuery expression for complex use case and mapping diagram to GLUE 2 concept"
- Conclusion: artefact closed.

Any other business

Section 5.2: Re-wording around the usage of the term "XML document"

- Proposal accepted during the call

Next steps

Ellen to finish the outstanding editorial work:

- Artefact 6033

- Incorporate Andreas' editorial remark and Donal's proposal into section 5.2

Ellen to issue WG last call today (21st) or tomorrow (22nd), ending 29 February or 4 March, respectively.
