DRMAA Working Group

- **Details:**
  - *DRMAA Working Session I (66)*
  - *DRMAA Working Session II (22)*
- ***Chairs***
  - *John Tollefsrud, Sun Microsystems*
  - *Hrabri Rajic, Intel Corporation*
- **Purpose**
  - *DRMAA WS I: In addition to a short introduction, there was a detailed discussion about the interaction among user application, DRMAA, and DRM system. The focal point was centered about getting the DRM default job attributes or at least the native DRM attributes set by the end user.*
  - *DRMAA WS II: We have discussed and specified job template attributes: execution command, command line arguments, environment, working directory, job time duration, job category.*
- **Plans**
  - *DRMAA WG is likely to have a session at GGF 6. The plan is to have a completed DRMAA spec draft by that time.*
