Charter
Open Grid Services Architecture Working Group (OGSA-WG)
Area: Architecture
Approved September 24, 2002

Contacts:

Chairs:
>   Ian Foster <foster@mcs.anl.gov>
>   Dennis Gannon <gannon@cs.indiana.edu>
>   Jeffrey Nick <jnick@us.ibm.com>

Architecture Area Directors:
>   William Johnston <wejohnston@lbl.gov>
>   Jeffrey Nick <jnick@us.ibm.com>

Information:

General Discussion Email: ogsa-wg@gridforum.org
Email Archive: http://www-unix.gridforum.org/mail_archive/ogsa-wg/maillist.html
Web Site: https://forge.gridforum.org/projects/ogsa-wg/
Web Master: Ian Foster foster@mcs.anl.gov

Purpose:

The purpose of the OGSA Working Group is to achieve an integrated approach to future OGSA service development via the documentation of requirements, functionalies, priorities, and interrelationships for OGSA services. Topic areas that we expect to scope and discretize early are common resource model and service domain mechanisms, but the precise set to be addressed will be determined in early discussions.

The output of this WG will be an OGSA architecture roadmap document that defines, scopes, and outlines requirements for key services. It is expected that the development of detailed specifications for specific services will occur in other WGs (existing or new). When this document is produced, the WG will consult internally and with the GFSG to determine whether to close or, alternatively, to work to produce a second edition.

Milestones:

GGF5 (July 2002): BOF to propose working group
GGF6 (October 2002): First draft of OGSA architecture document
GGF7 (March 2003): Second draft of OGSA architecture document.
GGF8 (June 2003): Final draft OGSA architecture document
