

MAJORDOMO HELP

How do users subscribe/unsubscribe with Majordomo?

Command	Action
subscribe < <i>list</i> > [address]	Subscribe yourself (or address if specified) to the named list.
unsubscribe < <i>list</i> > [address]	Unsubscribe yourself (or address if specified) from the named list.

To subscribe to an email list, send email to majordomo@ggf.org with the body

subscribe *list*

where *list* is the acronym of the group (like ogsa-wg). So, if you were subscribing to test-wg, the body of your email should have:

subscribe test-wg

If you subscribe to a working group list please be sure to also subscribe to the GGF general list (grid-announce@ggf.org) using the same method.

For more information on majordomo commands, please visit any of the following links (**note that many commands are disabled on ggf.org mail lists to reduce spamming**):
