Ellen Stokes (Minutes)

Final review of OGSA modeling guidelines doc – v16
- leave use of interoperability word as-is in doc…this is an informational document and does not deal with implementation
- interoperability before interoperation before compatibility/alignment…added text to section 1.3 (paragraph 3)

Document will now be sent to OGSA mailing list for final workgroup review…deadline for responding to this workgroup review is end of day Tues May 27.

Fred will upload his comment/response spreadsheet to public comment area in response to the public comments.
